About the Centre

The Centre for Higher Education Internationalisation (CHEI) is based at the Milan campus of Università Cattolica del Sacro Cuore and offers a **PhD programme** in the Internationalisation of Higher Education in conjunction with the **Doctoral Schools of Education and Languages**. CHEI also conducts **research** and offers **training** in various aspects of the internationalisation of higher education through **seminars** and **workshops** for academics and professionals. Many of these initiatives are delivered through **international partnerships, networks and projects**.

PhD Programme

CHEI offers one of the few doctoral programmes in Europe with a focus on Higher Education Internationalisation, and attracts **candidates from around the world**. The programme has been conceived for professionals in the field of **international higher education** who continue their careers while undertaking their studies. It is **offered in English** with teaching and supervision provided both by the **wide international network** that the Centre has built up over the years and **academic staff at Università Cattolica**.

PhD Research Seminar

Held **twice a year**, this **five-day seminar** is aimed at a broad community of aspiring or current PhD students. It offers a programme of **coaching sessions** in research design, critical thinking and effective writing aimed at enabling each student to **make progress** on their **specific research project**. All students are given the opportunity to present and discuss their research with peers and experts in the field and to learn more about internationalisation of higher education.

Current Themes in Focus

- Global national and institutional trends in internationalisation: policies and strategies for internationalisation; shifting rationales for internationalisation; internationalisation of the curriculum at home; the international student experience; mobility; employability, sustainability, inclusivity, access and internationalisation; virtualisation of internationalisation; international networks and alliances; emerging models of internationalisation; international education and institutional development.
- Internationalisation of Italian universities in the European and global context; the international student experience in Milanese universities; the international classroom and the use of English as a medium of teaching and learning.

Cooperations

INTERNATIONAL ACTIVITY

The international cooperation affairs of Università Cattolica are organised and coordinated by the **International Cooperation Unit**. It provides **support for faculty members** in their selection of adequate calls for applications that are launched mainly by the European Union, the Ministry of International Affairs and by other entities, such as various foundations. The unit also assists in **defining the project features** and provides **administrative support** in managing the project cycle for the selected and funded project proposals.

Università Cattolica actively **cooperates with projects** within the **EU framework** that focus on **social and educational issues**, such as:

- Inclusion strategies in education
- Social responsibility in business
- The food supply chain (Faculty of Agriculture, food and environmental sciences) and others.
- Intercultural and sports mediation in international Diplomacy
- Internationalisation at home of the higher education
- Soft skills and new technologies in adult education
- Practical training exchanges for the students in Medicine and surgery

In the future, Cattolica intends to **expand its participation** in cooperation projects promoting themes of **inclusiveness, civic and community engagement**, and **entrepreneurial education**, especially through the ERASMUS+ Strategic Partnerships programmes, Capacity Building actions and the

financial support of the Italian Ministry of International Affairs.

Currently, Cattolica takes part in about 30 projects, contributing to its reputation and expertise in research and development projects all around the world. For the proposal calls of 2025, Cattolica has shown once again its strong commitment to **finding new opportunities for innovations and complementarities** for an ever active and creative external engagement.

Cattolica also participates in ongoing projects like the **International Credit Mobility (ICM)**, thus facilitating connections with neighbouring countries. Currently, the University is working with **American and Ukrainian universities** by exchanging students and staff, and with the aim of implementing a conducive platform for the **reinforcement of research collaborations**.

Moreover, Cattolica promotes **European higher education** and the issuance of **Joint/Double Degrees** also through **Erasmus Mundus Joint Master Degree projects**.

Cattolica is also leading a project in a joint venture with the **e4IMPACT foundation** and **AICS (Ministry of Foreign Affairs)**, aiming at developing and sustaining impact entrepreneurship in Kenya and Ghana, as well as strengthening the **business ties between Africa and Italy**.

Medical insurance

EU Citizens

If you are a citizen from either an EU Member State or an EEA country or you are of Swiss nationality, you should have a European Health Insurance Card (eHIC, Italian acronym: TeAM) obtained in your home country from your national healthcare authority. The European

Health Insurance Card (or eHIC) allows you to receive medical treatment in another member state for free, or at a reduced cost. A patient contribution is required for prescriptions, medical examinations, oral and dental care.

Non-EU citizens

If you are a non-EU citizen you must take out an International Health Insurance which covers costs related to medical treatment and admission to hospital. If allowed by the Embassy/Consulate, you can also buy an Italian national Health Insurance upon arrival to Italy. Cattolica International will provide all necessary forms during the Orientation event.

All enrolled students are allowed to sign up for a health insurance policy provided by Università Cattolica valid for up to 12 months and renewable each year of enrolment at no additional cost. All eligible students will be notified of the terms and procedure to register. This coverage will cover students in Italy and other countries outside of the student's country of origin/residence.
