Insurance Law and Regulation

PROF. PIERPAOLO MARANO

Course aims and intended learning outcomes

The lessons will provide students with the means necessary to understand the legal framework governing private insurance. Thus, students will deal with legal and regulatory issues and they are expected to understand the rationale of such rules as well as the contents. This knowledge will allow students to better understand contents of other non-legal subjects, but related to the insurance.

Course content

The Single European Market and Third Countries.
Insurance and reinsurance undertakings: Governance and Solvency.
Supervision at national level and supervision on cross-border activities.
Insurance intermediaries.
Life and non-life insurance contracts.
Compulsory and maritime insurance.
Protection of insureds.
International insurance programmes.
Reinsurance.

Reading list

The reading list will be communicated by the lecturer during the course.

Teaching method

Lectures provided by professor, In addition, lectures provided by professional experts will be also arranged.

Assessment method and criteria

Oral examination aims at evaluating the understanding of the course contents and the capacity of students to argue on the above contents. Final grades will be provided based on the following criteria: (i) knowledge of the topics; (ii) ability to present the topics; (iii) ability to grasp the links between the different rules and to contextualize the topics.

Notes and prerequisites

Further information can be found on the lecturer's webpage at <http://docenti.unicatt.it/web/searchByName.do?language=ENG> or on the Faculty notice board.
