 [ACADEMIC POLICIES](#)

The Cattolica International Curriculum has been created specifically **for international students only** and courses are formulated to have an international teaching approach.

The curriculum is managed by the Cattolica International department and this means that it operates in a different way to the wider Cattolica Academic Curriculum.

There are **limited spaces available** in the International Curriculum courses, so **students are required to complete the Online Registration**, where they secure their spot in the courses they want.

Students can change their course selections when they arrive at Cattolica, during the first two weeks of the semester in the Add/Drop period. In order to be prepared for the semester, we recommend that you read all the information on this page.
