YOUR GATEWAY TO A GLOBAL EDUCATION

DOUBLE DEGREE PROGRAMMES

What is a Double Degree Programme?

An international Double Degree Programme is an **academic pathway** where students study at **two universities** in **different countries**, **earning two separate degrees**. This **enriching experience** combines diverse curricula, exposes students to **global perspectives**, and **enhances career prospects** through cross-cultural competence and a broader educational scope.

Why Choose a Double Degree through Università Cattolica?

Dual Certification: Obtain degrees from both Università Cattolica and an international partner institution, providing a significant edge in the global job market. Enhance your academic profile by gaining in-depth knowledge from two distinct educational systems, broadening your grasp of interrelated subjects, and achieving a well-rounded educational experience.

Enhanced Cultural Competence: Develop a deeper understanding of different cultures, crucial for operating effectively in today's globalised world.

Increased Employment Opportunities: Access a wider range of career options globally, particularly in multinational companies valuing international education and cultural adaptability.

Global Network Expansion: Build valuable connections with peers, faculty, and professionals, enhancing your global network.

ROI on Education: Double degrees often lead to higher earning potential and leadership roles due to the enhanced qualifications and skills gained. Additionally, this accelerated pathway allows you to earn two distinct degrees in a shorter timeframe than pursuing them sequentially, fast-tracking your academic and professional growth.
